Testimonials

"The original acting and dance camp around is now in its 12th year, and it still rocks! A true highlight of my son's summer. I highly recommend it!" – Elizabeth B. of Bayonne, NJ

"My son said everything was spot on!" – Tom H. of Brooklyn, NY

"My son thoroughly enjoyed each and every class. The small size gave him the confidence to learn and succeed at the same time. He came away from the experience with new skills and a new found sense of self confidence. The program is highly recommended!" – Lily S. of Staten Island, NY

Monday class

Tuition:

performance skills as well as useful life, presentation, and social skills and secrets needed to land your next role. Expanding on the knowledge of dance for the stage. For our theatre students, this is a perfect course play, regimentation, and puppetry. Family and friends will participate in bonding and teamwork exercises with obstacle courses and other activities. Teachers and students will learn about mechanical engineering, structural design, and introductory robotics. Working in teams, children will build their robots, discover scientific principles, and using laptops learn how to program their own robots. Using special We-Do LEGO® Education Kits, kids learn hands-on in a fun, engaging way.

No classes February 17 and March 31

Filmmaking Technique

Saturdays, February 3–May 5 (12 weeks)

No classes February 17 and March 31

Tuition:

explore other subjects such as business, creative writing, performing arts, and dance and receive a discount.

In this beginner class students will learn basic vocabulary needed to work with any medium. Course participants will also learn to build a research base, analyze the process and process of creating any medium, understand the 5 W’s of journalism, and write a variety of news stories and features. Emphasis on critical thinking and writing skills with workshop style sessions. Students will learn to research and write articles, conduct interviews, and present stories in multiple formats. Students will also learn about the history of the newspaper industry and its role in society.

ACT Teens–Theatre Master Class Levels I & II

This class is for actors and singers who want to focus and improve on basics. Students will complete several unique projects intended to incorporate the same basic principals learned in this class to conquering and achieving various self made tasks. They will be given after class has begun. It is understood that as a participant in any class cancelled. No cancellations or refunds will be given after class has begun. It is understood that as a participant in any...
Students will be introduced to our “triple-threat” theatre program at Wagner College: Singing, dancing, and acting. The theatre program provides a foundation for understanding the art of drama. There are a variety of acting classes for students of all ages, from 4 to 17. ACT Broadway Baby Boot Camp is for ages 4 to 8, while ACT Dance for the Broadway Stage is for ages 9 and up. Flying High with Lego Robotics is for ages 9 to 13, and Robotics: The Next Generation is for ages 10 to 15. On weekends, the Creative Living Environment offers classes for all ages, including Computer Technology and Digital Art Design.

For more information and to register, see reverse.
The ACT program at Wagner College continually receives high praises in all program categories from parents and young actors. This is a great class for socializing and fostering a love for theatre arts and an interest in performing. In our Free Seminar for Prospective Actor and Parents, you will be introduced, with an emphasis on improving acting and audition prep. Technique? Improvisations, monologues, and scene studies will be introduced, with an emphasis on improving acting and audition prep. Technique?
