

Baby, the cold's outside

It's January — and right about now there's a good chance some might be slipping into those post-holiday winter doldrums.

Experts long have maintained that entertainment is one surefire way to defrost winter blues, perhaps just what the doctor ordered to combat cabin fever, or what has come to be known as seasonal affective disorder (SAD).

But from the looks of things, thank goodness, post-holiday parties continue to be very much a reality. Anyway, didn't someone say it's permissible to toast the New Year throughout the month of January?

Enjoy the collection.
