## OFFICE OF HUMAN RESOURCES

### COVID-19 Community Expectations

As part of the Wagner College community, we rely on one another to personally take steps to ensure our health and safety on and off campus. We require all community members to agree and abide by the following requirements and expectations to minimize the spread of COVID-19. Please be advised that these expectations may evolve and can be adjusted by the College as circumstances change. Due to ongoing changes in guidance and infection rates, the College may institute different or additional COVID-19 related limitations, restrictions or policies. Failure to adhere to any of the foregoing safety measures may be subject to disciplinary actions up to and including termination.

As a Wagner College community member you are expected to help minimize the spread of COVID-19 and other infections for my own health and the health of others by following the guidelines below:

#### Be Safe

- Wear a face covering any time I am indoors – excluding my assigned residence hall room/suite/apartment – including but not limited to hallways, bathrooms, academic spaces, study/lounge spaces, and dining facilities, and any time I am outdoors and cannot maintain six feet of social distance.
- Self-monitor for symptoms of COVID-19 and complete the daily symptom questionnaire; abide by guidance from Health and Wellness when seeking medical attention.

#### Be Considerate

- Remain mindful of community members that may be immunocompromised or live with others who are.
- Stay positive, attentive, and helpful to anyone who may need support.

#### Be Smart

- Wash hands frequently with soap and water, or use hand sanitizer.
- Disinfect your work space, personal items, and living space regularly; limit sharing items.
- Review each day's schedule, plan ahead, and limit unnecessary travel.

#### Be Respectful

- Practice a minimum of six feet for social distancing where possible and be aware of others' personal boundaries.
- Abide by all event and gathering restrictions as identified by the College and/or state or federal governments.
- Stay home if you feel ill or after exposure to someone who is ill or has tested positive for COVID-19.
- Wear a face covering when in public spaces. You may feel great, but others around you could be vulnerable to the virus.

#### Be Together

- Practice good personal hygiene.
- Remind others to do their part.
