

WAGNER COLLEGE

EVELYN L. SPIRO SCHOOL OF NURSING

NR643: Family Health Nursing II

Practicum Evaluation Tool

Student Name _____ Date _____

Agency Used _____

Directions: To be completed at the midpoint and end of the clinical experience. The preceptor will rate each facet of clinical performance using the following scale:

4. Very good
3. Satisfactory
2. Needs Improvement*
1. Unsatisfactory*

*A rating of 1 or 2 requires comment by instructor

Appraisal Rating	Rating Scale Definitions
Very Good (4)	Consistently meets and exceeds criteria and demonstrates superior proficiency in skills and application of increasing knowledge in patient care delivery & advanced practice of nursing.
Satisfactory (3)	Performance that demonstrates the ability to meet the criteria in patient care. Delivery & safe advanced nursing practice exceeds requirements in one or more major aspects of work.
Needs Improvement (2)	Performance that inconsistently demonstrates advanced skills and knowledge for patient care delivery & advanced nursing practice.
Unsatisfactory (1)	Performance which does not meet normal requirements of skill performance.

Measures used to evaluate the quality of nursing performance and other aspects of performance include the following:

- direct observations
- concurrent / retrospective monitoring & review

- individual conferences
- anecdotal records

Please Circle Appropriate Evaluation: **Mid Semester** (100 Hours) or **Final** (200 Hours)

<u>Category</u>	<u>Total Program Hours</u>
Care of Adult:	200
Care of the Child/Adolescent:	200
Women's Health:	50
Urgent Emergency Care:	50
Elective Primary Care:	100

This is the second practicum for the Family Nurse Practitioner Student. This evaluation form will be used by the preceptor and the student after the completion of 100 and 200 practicum hours.

STUDENT LEARNING OUTCOMES:

Upon completion of this course, the student will be able to:

1. Demonstrate competency in the management of clients with primary chronic and acute conditions across the life span. EPLO 2; AACN 2.5; NP 2.5 NP 2.
2. Collaborate with the Interprofessional team to develop an evidence-based plan of care which addresses healthcare disparities and population health. EPSLO 3; AACN 3.1; NP 3.1
3. Analyze outcome indicators utilizing best practice principles to deliver safe quality care. EPSLO 5 NP; AACN 5.2; NP 5.2
4. Utilize information technology safely, legally, and ethically to manage client's data. EPSLO 8; AACN 8.5; NP 8.5

Select the descriptor below that best describes your thoughts.	4	3	2	1
Obtains and accurately documents appropriate health history.				
Performs and accurately documents appropriate comprehensive or focused physical examination.				
Synthesizes subjective and objective data to formulate an appropriate list of differential diagnoses.				
Orders, performs, and interprets screening and diagnostic procedures and tests.				
Documents appropriate findings in accordance with legal and professional standards.				
Distinguishes and prioritizes patient care between immediate needs and less immediate needs.				
Identifies health and psychosocial risk factors.				
Establishes therapeutic rapport with patients.				
Provides care that is nonjudgmental and sensitive to the client's needs and culture.				
Selects appropriate management regimen.				
Selects appropriate medications.				
Orders and interprets screening and diagnostic procedures and tests appropriately.				
Performs procedures competently.				
Initiates health maintenance therapy such as nutrition, skin care, OT, and PT, as appropriate.				
Makes appropriate referrals/consultations.				
Initiates health teaching to promote, maintain, or restore health.				
Evaluation				
Evaluates results of therapeutic efforts and continues and/or modifies therapeutic regimen as required.				
Documents concise, relevant, and complete data in accordance with legal and professional standards.				

Select the descriptor below that best describes your thoughts.	A	B	C	D
NP Role Aspects				
Collaborates and consults with members of the health care team effectively.				
Communicates client case concisely and in an organized manner when collaborating with preceptor and other members of the health care team.				
Assumes accountability for NP practice				
Legally protects self and patients in the delivery of health care and in problem-oriented medical record keeping.				
Maintains ethical standards.				
Assumes responsibility for defining NP role for patients, physicians, nurses, and other health team members.				
Functions appropriately within NP scope of practice.				
Utilizes preceptor consultation appropriately.				
Integrates current research findings and evidence-based guidelines into clinical practice.				
Engages in self-evaluation to identify areas for improvement.				
Seeks and selects learning experiences to increase skills and improve areas of weakness.				
OVERALL: I would rate this student's performance:
