

Suggestion for web pages for faculty advising:

Got to the Registrar Office webpage (in the left column):

Window 1: Registration (has ILC, special topics, times to register, and general information specific to the term)

Window 2: Academic information, then **Advisement** (has Course Bulletin catalog, Office of Academic Advising sheets for the major and FAQ's)

Window 3: Open MyWagner, go to Faculty/Advisor, then **Student Advising**, pick an advisee (has Unofficial Transcript, when accessed, has a PDF at the bottom for a transfer credit and its evaluation), there is their Degree Audit which is only OPEN to faculty advisor for quick check.

You can print the PDF for 2023-2025 at the top of this page, which has a search option for policies and programs: <https://wagner.edu/registrar/advisement/>

The courses that are still active in the catalog is the system lookup of active courses in the Jenzabar catalog. This is for planning only and is subject to change when new courses are added, and others are inactivated. We suggest using the Course Schedule Planner for the most up-to-date with specific term information for area look up for the general education requirements.
